Welcome Message

Thank you for your continued support of the Japanese Association for Veterinary Emergency and Critical Care Society (JaVECCS).

We are pleased to announce that the 4th JaVECCS International Symposium will be held on Saturday, March 13 and Sunday, March 14, 2027, at Ariake Central Tower Hall & Conference in Tokyo, Japan.

This symposium aims to share the latest knowledge and clinical expertise in veterinary emergency and critical care from both Japan and around the world, with the goal of advancing practical skills in clinical settings. Attendees will have the rare opportunity to learn directly from internationally recognized specialists, with simultaneous Japanese-English interpretation provided throughout.

The program features a wide range of clinically relevant sessions, including practical hands-on workshops, case-based lectures, and interactive panel discussions — all designed to be immediately applicable in daily practice. We hope this symposium will serve as a valuable platform for veterinarians and veterinary nurses across Japan and beyond to learn and grow together.

JaVECCS remains committed to fostering international academic exchange and educational opportunities to advance the quality of veterinary medicine in Japan. We sincerely hope you will support this symposium and join us in making it a success.
